F. Atlee Dodge Installation Instructions for Water Rudder Pick Up Handle

- 1** Prior to installation of F. Atlee Dodge Water Rudder Pick Up Handle consult with Float Manufactures Installation Manual or Parts Manual for correct Water Rudder Pick Up Handle System Installation.
- 2** Position handle over P/N3359-2 and catch P/N3359-3 over center line of cable fairlead on floor board.
- 3** Locate catch P/N3359-3 on instrument panel or side Interior Panel to accept Water Rudder Pick Up Handle.
- 4** Catch P/N3359-3 can be installed with 2 AD-5 rivets or suitable AN hardware.
Note: Under no circumstances should the Water Rudder Pick Up Handle or catch interfere with any cockpit engine controls or flight controls movements.
- 5** After installation of handle and catch is complete refer to float manufactures for correct rigging of Water Rudder Pick Up Handle cable.
